Personal statement

A highly experienced and creative web developer with 11 years' experience in a variety of exciting projects. A level head and rational approach to problem solving combined with a passion for innovative and fresh ideas has led to a portfolio of impressive website solutions. Technically competent and industry aware means that each project is undertaken with the most up-to-date and relevant programming foundations available.

Core skills

- Experience of 11 years in PHP, MYSQL, CSS, XHTML and JavaScript
- Experience with design pattern, architecture layouts and MVC frameworks like Zend, Laravel, Codeignitor, and Symfony.
- Advance knowledge of JQuery, Bootstrap and Angular.
- Expertise in Drupal, Magento, Wordpress and Joomla.
- Rich experience on APIs like Amazon API, Google API, and RETS API
- Worked on different types of payment processors like PayPal, authorize.net, Google checkout etc.
- Experience with object-oriented software development methodologies
- Integrating new technologies into web properties
